sat group

a specialised solution provider for industrial and civil sectors

Established in 2003, SAT Group is a relatively young company. Within a short span, the company has received recognition as a market leader. The architects of the company and its management, formed by a team of professionals with over twenty years of varied experience, envisaged the company to be a specialised solution provider for industrial and civil sectors alike. The company and its customers have the support of highly professional and motivated staff and are very well equipped to address the needs encountered in the region.

quality

SAT is committed to providing the highest quality of service for our entire product range to our customers by:

- Consistently meeting or exceeding our customer's expectations of product quality and performance
- Timely delivery of products and services to meet our customer's requirements
- Continuously revisiting and improvising our processes and systems
- Ensuring our personnel are properly factory trained and hone their exposure to the industry to provide exceptional service
- Employing a technical team to provide support for contractors during installation as well as end users in the longer term by performing on site servicing

targets

SAT will align with our customers as partners to ensure mutual success by providing experts who can understand the needs and are able to offer specific customised solutions and impart value added engineering services.

While planning for and meeting stringent project schedules and tough standards, we aspire to consistently meet our customer's requests. Our policies stem from a sincere endeavour at reaching the pinnacle of competitiveness in both sales and services.

one partner – all solutions

Today we are proud to be recognised as one of the leading agent, stockist and distributors of:

- Cables
- Luminaries
- Ventilation equipments
- Cable management system
- Earthing & lightning protection system
- Transformers
- Explosion proof electrical equipments

.....by choosing the SAT Group you'll have access to a complete and comprehensive range of solutions for the industrial and civil sector!

markets

SAT Group is constantly enlarging its presence in the Gulf markets and, after the establishment of the Abu Dhabi company, other branches are planned to be opened soon in other GCC countries so as to be closer to our clients and provide them with even better staff support.

associates

To reach our targets without the vital and continuous support of our principals would be nearly impossible. We understood the significance of this collaboration and in line with our vision and in a joint venture with industry specialists, are associated with the following professional companies:

Flowline Controls

process control valves solution provider
www.flowline-controls.com

FlowLine Controls

Nuova ASP Middle East

explosion proof electrical equipment
www.nuovaaspme.net
